

ABOUT

I have been learning IT since the beginning of 2022. At the moment, I only know about the client side, but I plan to deal with the backend. You can view my projects on my git. For more specific information, go to my deployed web-cv. You can find it on my GitHub

WORK EXPERIENCE

- 2022, 27 of September - 25 - November
Incora Coding Camp
At Incora Coding Camp, my team and I developed a booking service that was our non-commercial project

EDUCATION

- 2018-2021
LNU
Before I started studying IT seriously, I studied at university for a profession as far removed from it as possible.
- 2022, from March 25 - until now
Okten Web
Courses on which I learned React and where I plan to continue learning such technologies as Java, Spring, Angular, React Native etc
- 2022, 27 of September - 25 - November
incora coding camp
After successfully passing the project in React - i was invited to courses from the Incora company, where i improved my knowledge of React and acquired practical development skills
